Tail-End Club Closed Season with a Profit of \$1,000.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Sept. 28.-The Terre Haute Baseball Association makes a showing for the season that is almost phenomenal. There is a profit of \$1,000 with a tail end club, which had forty-nine differthrough in one position and with four man-

Reds for De Armond President Smith, of the Terre Haute asfans from utterly going back on his club. In recognition of such good patronage next season every precaution will be taken to give Terre Haute a pennant winning team. FIVE GRAND CIRCUIT EVENTS DE-CIDED IN STRAIGHT HEATS.

Ethel's Pride Won the Big Purse-Dr. Strong, Jay McGregor, Directum Miller, Jessie S. Also Won.

CINCINNATI, O., Sept. 28.-The Grand Circuit meeting opened at Oakley Park this afternoon under very favorable auspices. The weather was superb. The track was moderately fast. The attendance numbered about 3,000. The betting Wilson to Osten to Clarke; Green to Slat- | ring was "open," and six books, in addition to the auctions, did a fair business. The sport was first class, though the five events which made up the card were dewon. The sport was opened with The Horse Review's ninth purse of \$5,000 for three-year-old trotters. The choice was Dr. J. C. McCoy's Ethel's Pride, and she won in straight heats. In warming up she appeared a trifle skimpy and was disposed to act so badly that the pooling shifted from 25 to 7 for the field to 25 to 11. Fred Hyde was carded to drive her, but after they had scored down a time or two he resigned his seat to Scott Hudson. C. Pal- Blue Banner, 85. meter's Baron Gale, under the clever handling of Chandler, trotted three steady heats, and while close up at all times, did not have the speed to stall off the superb rush of the daughter of Directum. After the first heat the betting was 25 to 6 in favor of Ethel's Pride, and after the second heat there was no betting.

The 2:11 trot was much of a surprise, The choice was naturally the Michigan gelding, McKinley, which, at Columbus, trotted the three fastest heats of the year. GENERAL SHAKE-UP.

Heavy Men WilleBe Shifted to the Second Eleven-Purdue Will Take No Chances with Wabash.

BLOOMINGTON, Ind., Sept. 28.-After the football game of Saturday, in which Wabash defeated Indiana, it is evident that there will be a general shaking up of the

eleven. The men were slow, and they seemed to play like a lot of dummies. It is the feeling that there is material here for a good team, and it is the intention to put in a week of hard work in preparation for a game with Chicago University next Saturday. Some of the heavy men will go over in the Indiana eleven to learn the game, and lighter men will go into the Chicago contest. The opinion is that Indiana, in no way gave an exhibition of its real strength Saturday. The coaches had a conference last night and they propose to neglect nothing that will add to the line work of the eleven.

PURDUE WILL PROFIT.

Wabash College. Special to the Indianapolis Journal.

LAFAYETTE, Ind., Sept. 28 .- The Purdue football team will go to Crawfordsville Thursday to play the Wabash College eleven. The game was not included in Purdue's regular schedule, but has since been arranged. The fact that Wabash defeated Indiana will make the contest an interesting one and a large delegation of students will accompany the team. Captain Osborne will play quarter. It is harder to decide upon which of the half backs will be chosen for the 'varsity. Purdue is unusually strong in the back field this year and there are many candidates who could play the positions equally well. Mowrey excels in hurdling and line plunging while Zimmerman is faster than any of the rest. Holter is a great ground gainer and Whitehead is strong in the rushes. Mowrey and Zimmerman seem to be the most desirable at the present time. Thomas will play full back without a doubt. He has no close rival for the place. Cutts has a great number of substitutes for every position but end.

FIRST GAME WITH WABASH. Training School Team Desires to Score Against Collegians.

The Manual Training High School football team is working hard to get into shape for the game which will be played with Wabash College at Crawfordsville next Saturday. The latter team made a great State Golf Tournament at Country showing against Indiana last Saturday, but the local team is confident of victory, and the collegians will have to play the best kind of football to defeat them. Dow. Cul-len, Muir and Robinson showed up well in practice yesterday, and Captain Saunder son is well pleased with the chances of the team. It is very probably that the football enthusiasts of the South Side school will charter a special car to convey them fifty have announced their intention of accompanying the team, as they are anixious start the season with a victory. an Abundance of the Birds.

Nearly all of the shooters who attended the dedication tournament of the Indianapolis Gun Club last week, especially those who reside in small towns in Indiana and Illinois, said that the coming quail season will be the best in several years. Indianapolis shooters have received reports from various parts of Indiana, especially southwest, west and northeast of here to the effect that there will be plenty of quail this year. Farmers in Indiana and Illinois have become so strict regarding hunting on their farms that the shooters who do not "stand in" will find it difficult to hunt where the most quail can be found. Local shooters are already preparing for the coming season, although the quail season does not open until Nev. 10.

McGilvray was last year captain of the Anderson team and Campbell played second rush on the Clinton team that finished the season at Racine. INDIVIDUALITY OF BIRDS.

Varying Traits Constantly Seen and Expressed in Strong Relief. Francis H. Herrick, in October Century.

In studying different birds of the same species individual traits are constantly seen and expressed in strong relief. The greatest differences seem to lie in the relative development of their sense of fear. In one wren family the male never fed the young and the female never became very tame. What a different state of affairs was found at another wren's nest studied of this nest it was fully forty-five minutes before the young got a morsel to eat; but after the first visit the victory was won, and the hen if not the cock bird became very tame. During the preliminary interval of suspense the male sang cheerfully, but the female was at the nest and stump many times before venturing inside. Five minutes after her timidity had been finally overcome the male was also on the stump, where he sat with drooping wings and gave his alarm; thence he flew to a tree, then to the ridgepole of the tent, where he sans merrily, while the young were fed by his mate. The male sang all the morning until fourney and more entries are expected be-fore the entry list closes. A putting and driving contest will be held Thursday.
